EDUCATION

Sakarya University

Econometrics, Undergraduate

Sakarya, Türkiye

2024 - Present

PRODUCT EXPERIENCE

SOCI4L

Product Lead

Remote

Feb 2026 - Present

- Own product vision, strategy, and positioning for an on-chain reputation layer on Avalanche that turns a wallet's real activity into verifiable reputation.
- Designed the reputation system's UX architecture end to end: attestations, reputation scoring, public profiles, social graph, and showcase modules.
- Shipped across three product surfaces: web app, browser extension, and a developer SDK.
- Competed in Avalanche Build Games with the product and its reputation system design.

StampUI

Founder & Product

Remote

2026 - Present

- Building a commercial React/Next.js UI block platform structured as a system: components combine into blocks, blocks into full-page templates, all in one dark design language.
- Defined the product architecture across a web platform, an open-source component library (github.com/StampUI), and an npm CLI for one-command installs.
- Own pricing, packaging, and go-to-market planning ahead of public launch at stampui.com.

Floyka Design Studio

Creative Director

Türkiye

Apr 2023 - Present

- Shipped 12 plugins as products to the Framer and Figma marketplaces, including AsciiMotion (used by 140+ creators, freemium model) and the official Avalanche Brand Assets ecosystem kit.
- Delivered brand, product, and IRL experience design for clients including Rlay Hub, ODTÜ Blockchain Days 2026, Istanbul Blockchain Week, Fork, CipherHouse, and WebV.
- Won Framer Site of the Year (2024); official Framer Partner.

Avalanche Team1 Türkiye

Social Media Lead

Remote

Sep 2025 - Present

- Lead content strategy and ecosystem storytelling for Avalanche's official Türkiye community; run community projects that grow the builder ecosystem.

LEADERSHIP & ACTIVITIES

- **Corporate Relations, SAÜ Blockchain Student Society** (Feb 2026 - Present): build partnerships between Sakarya University's blockchain community and ecosystem teams.
- **Earlier community and content roles** (2020 - 2024): Buildchain, KimlikDAO, Web3LibTR, Technoswap.

SKILLS & INTERESTS

Product: Product vision and strategy, positioning, UX architecture, roadmap and prioritization, freemium and marketplace go-to-market, on-chain product thinking

Design & Engineering: Design systems, interface and interaction design, creative engineering; Figma, Framer; agentic AI workflows and automation

Selected Work: SOCI4L (soci4l.net) · StampUI (stampui.com, upcoming) · 12 marketplace plugins (framer.com/@floyka)
